4. Schedule 1 of the Workers Compensation Act 1987 defines certain individuals as being "deemed" workers. Principals and employers should ensure that where "deemed" workers are engaged the full amount of the contract payments are included in the total estimated wages. The Act extends the definition of workers to persons not generally considered to be employees. These include for example, some contractors, taxi drivers, and outworkers. Even though such people may not be employees they are "deemed" to be workers for the purposes of workers compensation insurance. A business that engages contractors who are "deemed" to be workers is considered to be an employer even if the business has no direct employees.
